

A BRIGHT IDEA, INC.

FOG FREE REFLECTIONS

A PERFECTLY CLEAR VIEW

Are you looking for a clever, high-margin add-on product that differentiates your business? What if it also takes minutes to install and thrills your homeowners? A Bright Idea, Inc. offers you a proven way to increase your bottom line while giving your homeowners a hassle-free morning. *Fog Free Reflections™* are ultra-thin, flexible, carbon/Mylar® panels that easily mount behind the bathroom mirror and deliver a fog-free view — all for less than the cost of an average light fixture.

A STEP ABOVE THE REST

Fog Free Reflections give your homeowners the something special they cannot resist: the true luxury of a hassle-free morning. No more cutting short a shower to avoid fogging the mirrors. No more clearing the mirror with a towel or hairdryer. No more waiting to shave or apply makeup. When the vanity light is on, *Fog Free Reflections* safely heat the mirror, giving the homeowners a crystal clear view after each and every steamy shower.

FAST & EASY TO INSTALL

Simply staple to the bath wall

Fog Free Reflections are simple to install and are certified to UL and international safety standards. The thin panel can be stapled directly to the dry wall or attached behind the mirror. Cut a hole in the sheetrock and wire the unit to the vanity fixture or a separate switch — it's your choice!

A CLEAR WINNER FOR ALL

Costing less to run than a 75 watt light bulb, *Fog Free Reflections* are guaranteed for 10 years for manufacturing defects and are available in four sizes:

20"×14" **SRP \$99.99**

20"×34" **SRP \$149.99**

20"×20" **SRP \$129.99**

20"×44" **SRP \$179.99**

Plus, *Fog Free Reflections* are available in custom sizes and low-voltage versions for in-shower installation.

THE BOTTOM LINE

Fog Free Reflections allow your homeowners to fully enjoy their beautiful bathrooms no matter how steamy the shower — a constant reminder of your attention to detail!
